FOR THE LOVE OF NATURE...

HONEY THERAPY

Many years of experience in the beekeeping industry has allowed us to use the beneficial effects of beeproducts in cosmetics.

In order to meet the needs of our customers, when creating the **HONEY THERAPY** brand we use only natural raw materials, including: honey, pollen, royal jelly, beeswax, propolis, plant oils, iodine-bromine salt.

We have created carefully elaborated recipes for cosmetics with unique fragrance compositions.

For the production of cosmetics we also use **ECO-CERT**-certified raw materials.

We support the activities of the Apikultura Foundation. **Find out more at apikultura.pl**

BEE PRODUCTS IN COSMETICS

Honey enriches the skin with biologically active substances - increases tension of skin, makes it soft and smooth. Additionally, it increases blood flow in the skin tissue, which makes the skin more elastic, smoothes out wrinkles. Honey shows also disinfecting, cleansing and healing effects, removes exfoliated epidermis and cleanses the pores.

Royal jelly is a treasury of micro and macroelements, vitamins B, A, E, and K. It also contains pantothenic acid, enzymes, coenzymes, biotin, and nucleic acid. It removes free radicals and has a bacteriostatic effect. Restores vitality and slows down the skin ageing process.

Beeswax makes skin elastic and moisturizes it. It is commonly used as an ingredient for creams, ointments, soaps, lotions, lipsticks. Beeswax added to creams and lotions, makes them easier to spread and leaves protective layer on the skin.

Bee pollen is truly rich in nutritious substances and constitutes a perfect combination of many valuable ingredients. As a result, it strengthens health and has a positive affects on the appearance of the skin. It contains all B vitamins as well as vitamins C, D, E, K, beta-carotene, numerous micro- and macronutrients, enzymes, unsaturated fatty acids and proteins.

Propolis is a natural antibiotic agent. It is extremely efficient in eliminating bacteria. It also shows antifungal, anti-viral and anti-oxidative properties. It has a regenerating, anti-inflammatory effect and restores tissue. It is composed of many valuable compounds, including micro- and macronutrients as well as flavonoids.

BEE BUTTER WITH PROPOLIS

Thanks to the experience and knowledge of beekeeping we have created bee butter for body, face and hair. It is a unique combination of buckwheat honey, propolis, pollen, and beeswax with natural vegetable oils and shea butter. This product is 100% natural and we owe it to the work of bees. The rich composition proves its multitasking and functionality. Recommended for all types of skin and hair as well as for problematic skin care. The 67% of propolis extract used in the composition shows antibacterial, anti-inflammatory, anti-viral, and antifungal properties.

Ingredients:

INCI: Butyrospermum Parkii Butter, Cocos Nucifera (Coconut) Oil, Cocoa Butter, Prunus Amygdalus Dulcius Oil, Propolis, Mel, Simmondsia Chinesis Seed Oil, Olive Oil, Beeswax, Pollen.

The product was awarded the Bronze Medal at the International Federation of Beekeepers' Associations Apimondia Montreal, Canada 2019

Active ingredients

PROPOLIS - has anti-inflammatory, antibacterial, anti-viral, and antifungal properties. It soothes skin irritations and redness, accelerates wound healing.

BATH BUTTER WITH PROPOLIS

Thanks to the experience and knowledge of beekeeping, we have created an innovative bath butter with propolis for body care. The 100% natural cosmetic is characterized by a simple yet rich composition.

A unique combination of propolis, shea butter, cocoa butter, and almond oil. Recommended for all skin types, especially great for problematic skin care. The 67% propolis extract used in the composition has antibacterial, anti-inflammatory, anti-viral, and antifungal properties.

Properties: moisturizing, care, lubricating, regenerating, soothing.

How to use:

Add a teaspoon of butter to a warm bath (bath time minimum 15-20 minutes). Designed for daily body care. Do not use if you are allergic to any of the ingredients. In case of an allergic reaction, please discontinue the process. Before first use, perform an allergy test.

Ingredients:

INCI: Butyrospermum Parkii Butter, Cocoa Butter, Prunus Amygdalus Dulcius Oil, Propolis.

Active ingredients

PROPOLIS - The 67% of propolis extract was used in the production. Commonly called "natural antibiotic". It soothes irritations and redness, accelerates wound healing. Effective in the fight against acne. In hair care it has an anti-dandruff and regenerative effect.

COCOA BUTTER - moisturizes the skin, soothes irritations, improves skin tone. Supports epidermal regeneration, delays skin aging, reduces the appearance of wrinkles, scars and stretch marks.

SWEET ALMOND OIL - moisturizes, softens the epidermis, strengthens the skin's lipid barrier. Firms, improves elasticity, soothes irritations. Recommended for dry, itchy skin, used to treat eczema and psoriasis.

SHEA BUTTER – It works as anti-wrinkle, oils the skin while not clogging pores. Shea butter products are recommended for dry hair, rough and cracked skin. It leaves a shiny layer on the surface of the skin or hair.

HAND CREAM WITH HONEY AND PROPOLIS

This innovative product contains honey and propolis. Thanks to the presence of honey, it perfectly moisturises and nourishes the skin, while propolis provides antibacterial and antifungal effects. The presence of Shea butter determines the cream texture. Sweet vanilla constitutes a subtle aromatic tone of the product which provides you with unique sensory experiences.

Our nourishing hand cream with honey and propolis was recognized by the International Federation of Beekeepers' Associations Apimondia 2015.

Ingredients:

INCI: Aqua, Butyrospermum Parkii (Shea Butter), Honey, Cetearyl Alcohol, Glycerin, Persea Gratissima (Avocado) Oil, Glyceryl Stearate SE, Urea, Ceteareth- 20, Propolis Cera, Panthenol, Sodium Polyacrylate, Tocopheryl Acetate, Phenoxyethanol, Ethylhexylglycerin, Alcohol Denat, Parfum.

Active ingredients

HONEY - for the production process we use multiflower honey and buckwheat honey that additionally nourishes the skin and regenerates the hands.

PROPOLIS - accelerates wound healing, has anti-inflammatory, and antibacterial properties.

UREA - stimulates epidermis regeneration as it accelerates cell division in the granular layer of the skin.

SHEA BUTTER - is responsible for deep skin hydration, leaves a protective lipid layer on the hands that prolongs the hydration effect and improves elasticity. It is natural, low factor sunscreen.

ALANTOINE AND D-PANTHENOL - soothe irritations.

AVOCADO OIL - smoothes the skin, moisturizes and nourishes.

HONEY & VITAMIN POWER

The Honey & Vitamin Power cosmetics series is a unique combination of vitamins and bee products. Creating recipes, we focused on the antioxidant effect of buckwheat honey, royal jelly and propolis for face and body care.

The Honey & Vitamin Power series reduce the formation of free radicals that have a negative effect on our skin. Cosmetics have moisturizing, nourishing, antibacterial, and anti-wrinkle effects. They even out the skin tone and reduce discoloration. The Honey & Vitamin Power series is especially designed for dry, acne-prone and problematic skin.

Active ingredients

BUCKWHEAT HONEY - has an antioxidant effect. High amount of rutin in the composition of this honey reduces the action of free radicals, slows down cell degeneration and as a result, skin aging process.

ROYAL JELLY - called "Elixir of Youth" reduces wrinkles, nourishes and moisturizes the skin.

BEE POLLEN - provides energy and gives a nutrition boost thanks to the high content of micro and macroelements with a wide range of vitamins.

PROPOLIS - effective in the fight against acne.

BABASS OIL - moisturizes, firms the skin and prevents aging.

HYALURONICACID - plays an important role in moisturizing the skin, makes it more elastic, prevents skin from sagging and slows down the aging process.

VITAMIN C - when used regularly, reduces discoloration, brightens and improves skin tone.

VITAMIN E - a powerful antioxidant, has anti-aging, moisturizing and nourishing properties.

FORBIDDEN FRUIT

FORBIDDEN FRUIT is a unique series containing bee pollen, many vitamins and micronutrients that nourish your dry and tired skin. The recipe is based on specially developed formulas and provides skin comfort and a healthy look, revealing its true beauty.

Skin-friendly products protect against harmful effects of external factors, have detoxifying, rejuvenating and strengthening effects. They are enriched with a refreshing apple scent.

Active ingredients

HONEY - it has moisturizing properties. We can apply it on chapped lips, dry and rough elbows and knee skin.

ROYAL JELLY - is a treasury of B, A, E and K vitamins. It also contains pantothenic acid, enzymes, coenzymes, biotin and nucleic acid.

BEESWAX - has a number of extremely beneficial nutrients that reach the deeper layers of the dermis. Importantly, beeswax is safe for the skin and does not cause any allergic reactions.

GLYCERINE - protects against the negative effects of temperature.

JOJOBA OIL - The chemical composition of jojoba oil is very similar to human sebum. It helps to maintain the balance of sebum in the skin, therefore it is recommended for people with oily and dry skin

ALANTOINE - it has above all a strong moisturizing, regenerating, anti-inflammatory, soothing and astringent properties.

D-PANTHENOL - has healing and regenerating properties for damaged and dried epidermis, heals sunburn.

GOAT’S MILK - the composition of goat’s milk contains proteins valuable for our skin that have the ability to penetrate the layers of the epidermis and thus deeply nourish the skin.

IODINE-BROMIDE SALT FROM THE BOCHNIA REGION - bathing in salt solution reduces cellulite, improves skin firmness and stimulates blood supply to the skin.

ALMOND OIL - Sweet almond oil owes its strong moisturizing properties to the combination of oleic and linoleic acid and a set of vitamins, in particular the combination of vitamin A and vitamin E that is very important for your skin.

DICTIONARY

Almond oil - clean, odourless, high in fatty acids. It smoothes, lubricates, retains water in the skin, and facilitates the absorption of moisture from the environment, promoting the renewal of lipid balance.

Shea butter (ECO -CERT) - contains fatty substances, vitamins E and F. It moisturizes and lubricates the skin, leaving it smooth and soft. Regulates the process of keratosis of the epidermis, reduces itching. It is used in treatment of allergies, psoriasis and dermatosis.

Jojoba oil (ECO -CERT) - perfectly absorbed by the skin, strengthens the intercellular cement layer, which in effect prevents skin from drying out. It eliminates the possibility of stretch marks appearing for example during pregnancy.

Beeswax - has a moisturizing effect. It protects our skin, nourishes it, makes the epidermis elastic, which slows down the aging process and improves skin firmness. Added to cosmetics makes them easier to spread and leave a protective layer on the skin.

Honey - used in medicinal cosmetics. It enriches the skin with biologically active substances - increases skin tension, makes it soft and smooth. It strengthens the blood flow in the skin tissue, which makes it more elastic and smoothes out the wrinkles. Honey has a disinfecting, cleansing and healing effect, removes exfoliated epidermis and cleanses the pores.

Royal jelly - contains micro and macroelements such as potassium, sodium, calcium, phosphorus, magnesium, iron, zinc and sulphur. It is a treasury of vitamins B, A, E and K. It removes free radicals and has a bacteriostatic effect. It restores vitality and slows down the skin aging process.

Glycerin - used in cosmetics for years because of its brilliant moisturizing properties. It naturally shields the epidermis, penetrating the intercellular spaces where it binds the amount of water necessary to maintain proper hydration. Helps the absorption of active ingredients through the skin without damaging its lipid barrier and contributes to the regeneration of the lipid coat.

Allantoin - one of the active agents of comfrey root extract. It has a soothing and relieving effect. It moisturises, smoothens, softens the skin and accelerates epidermal regeneration.

Grape seed oil - regenerates and supports the skin's protective barrier. Regulates the keratinization process.

DICTIONARY

Bee pollen - is truly rich in nutritious substances and constitutes a perfect combination of many valuable ingredients. As a result, it strengthens health and has a positive influence on the appearance of the skin. It contains all B vitamins as well as vitamins C, D, E, K, beta-carotene and numerous micro- and macronutrients, enzymes, unsaturated fatty acids, proteins and 22 amino acids.

D-panthenol - a biologically active cosmetic component, offering intense stimulation of growth and cellular restoration. It has a soothing effect on damaged skin and mucous membranes, relieves irritation and allergic conditions. It improves the skin moisture, leaves it flexible and pleasing to the touch.

Propolis – is a natural antibiotic agent. It is extremely efficient in eliminating bacteria. It also shows antifungal, anti-viral and anti-oxidative action. It has a regenerating, anti-inflammatory effect and restores tissue. It is composed of many valuable elements, including micro- and macronutrients and flavonoids.

Avocado oil - provides excellent skin smoothing. It causes deep moisturizing and nourishing of the skin. It supports natural sun protection.

Cocoa - has moisturizing, lubricating and protective effects. It does not cause allergies. It prevents and supports the fight against stretch marks. The antioxidants contained in cocoa, neutralize skin-damaging free radicals. It gives the skin shine and smoothness because it softens it and gives it elasticity.

Cinnamon - has a warming effect, improves circulation and reduces muscle tension. It firms the skin, has an anti-inflammatory effect and is effective in the fight against cellulite.

Rice germ oil - has antioxidant effect, improves skin condition, reduces visibility of discoloration. It has a soothing effect, removes dead skin and regenerates it.

Coconut oil - moisturizes, nourishes, firms and makes the skin more elastic. It has an anti-wrinkle effect and protects against the harmful effects of the sun.
