ABOUT US

Over 30 years of our company in the field of beekeeping is a guarantee of reliable knowledge that allows us to manufacture the highest quality products at Lyson Apiary.

We have been organic in what we do for years, and a big part of it is educating about these little pollinators, which are bees. Our heart has been beating in the apiary for many, many years.

In the Lyson Group, we create modern beekeeping standards and are a leader in the production of beehives and beekeeping equipment all over the world.

A fresh look at the market demand for healthy, nutritious and high-quality products with a hint of bee products opened the way that we are currently going.

Welcome to our manufacture...

which abounds not only in classic honey and bee products, but also in energy bars, granola, beeswax candles, sweets, and natural honey-based cosmetics.

WE SELL HONEY FROM THE CLEANEST REGIONS OF POLAND. NUMEROUS AWARDS AND CERTIFICATES CONFIRM THAT OUR PRODUCTS ARE TOP CLASS AMONG BEE PRODUCTS

Our hearts beat in the apiary

For us, bees are not only useful creatures that give honey. It's a never-ending inspiration. It is from them that we learn what is most important in the LYSON Apiary and in life.

We draw on tradition, but we look to the future

Bees follow their swarm, but when necessary, they can fly on their own. We also remember that we grew out of a small family manufactory, which is why we are inspired by bees and respect tradition in beekeeping. At the same time, we are looking for innovative (sometimes unconventional!) solutions to give our customers even more healthy products and pleasure from using bee products.

We are committed to what we do

To collect 1 kg of honey, a single bee must visit about 4 million flowers. At LYSON Apiary, we devote ourselves to our work with passion, and that does not end at work! We really like the products we manufacture and sell. At home or on a trip, we always have something tasty from the LYSON Apiary at hand. See our social media!

We control the quality at every step

We carefully examine every product that leaves our production. Our quality department consists of specialists who check the origin of every raw material and production process. We have full traceability of production batches. Thanks to this, you can be sure that each of our products is safe, tasty, and healthy with each bite.

QUALITY AT ITS FINEST

We are helpful and kind to each other

In our LYSON family, atmosphere is not just an empty slogan. In a hive, every bee is important, so we also make sure that we all get along well. We have a group on WhatsApp where we share reports from holidays and weekend adventures. Some of them even end up on our social media.

We run our business in harmony with nature

Bees are very sensitive of the state of natural environment, and we try to provide them with the best ecosystem. That is why we feel responsible for the entire environment that surrounds us. We help beekeepers to produce bee products in a sustainable way. We use bee products only from known and eco-friendly sources. In return, we receive quality products that improve your well-being and increase energy levels. We also use ecological, suitable packaging.

We care about good relations with the local community

We want as many people as possible to fall in love with bees - just like us. That is why we have created the APILANDIA Interactive Beekeeping Center, where you can learn about the life of bees. These activities are supported by the APIKULTURA Foundation, which aims to promote knowledge about the role of bees in our environment.

We promote a healthy lifestyle

We are convinced that physical activity and a healthy diet are crucial to our well-being. That is why we support many initiatives related to a balanced diet and sport. We regularly donate our honeys, honey bars and other delicacies as prizes and gifts for participants of school competitions, marathons, conferences, or charity events.

ADDITIONS OF BEE PRODUCTS, I.E. HONEY, BEE POLLEN, BEE BREAD, PROPOLIS AND ROYAL JELLY, MAKE OUR SWEETS A HEALTHY COMBINATION OF NATURAL SWEETNESS AND A BALANCED DIET THAT HELPS MAINTAIN HEALTH

Short composition - full of taste

Few ingredients are enough to prepare a healthy snack that tastes delicious and fills you up for a long time. And without artificial colourings, enhancers, and added sugar. Natural source of fiber. It is a must try!

REACH FOR HEALTHY SWEETNESS

Healthy, tasty, no added sugar

Oatmeal, milk and honey - sounds like a delicious breakfast? We think so too. That's why you'll find them in our Honey Bar. This is a bar that will provide you with a lot of energy and drive away hunger for a long time. In the morning and at any time of the day. Honey Bar contains a lot of carbohydrates, fiber, and the sweet taste will pamper your palate. Without artificial colourings, enhancers, and added sugar. Because why sugar when you can add dates, apricots and coconut flakes, right?

Natural and healthy

Wholesome protein will strengthen your body, and dietary fiber will regulate metabolism. Vitamins and minerals make immune system stronger. Antioxidants will delay the aging process and reduce inflammation in the body.

Perfect for an active lifestyle

Healthy, nutritious products will provide you with energy for the whole day. It doesn't matter if you're in the mountains or by the sea, it's important that it's healthy and naturally with honey.

You are what you eat

At apiary LYSON, we trust nature. That is why our products do not contain GMOs, i.e. ingredients modified by genetic engineering. You will also NOT find any emulsifiers, stabilizers and artificial flavors in them.
